

PUBLICATIONS / 1974-2020

123. "Diastereoselective and Regioselective Synthesis of Adenosine Thionucleoside Analogues Using an Acyclic Approach". B. Cardinal-David, M.O. Labbé, M. Prévost, S. Dostie and Y. Guindon. *Can. J. of Chem.*, **2020**, Accepted for publication. (Commemorative Issue in celebration of the 100th anniversary of the Université de Montréal's Department of Chemistry).
122. "Identification of a C2'-Fluorinated SAH Analogue". M.O. Labbé, F.Li, Z-J. Xiong, S. Santhakumar, S. Dostie and Y. Guindon. *J. of Chem.*, **2020**, Accepted for publication. (Commemorative Issue in Honor of Dr. James Wuest).
121. "Identification of a C3'-nitrile Nucleoside Analogue Inhibitor of Pancreatic Cancer Cell Line Growth". M.O Labbé, L. Collins, C.A. Lefebvre, W. Maharsy, J. Beauregard, S. Dostie, M. Prévost, Y. Guindon. *Bioorg. Med. Chem. Lett.*, **2020**, *30*, 126983.
120. "Diastereoselective Synthesis of Arabino- and Ribo-like Nucleoside Analogues Bearing a Stereogenic C3' all-carbon Quaternary Center". T. Lussier, A. Manchoju, G. Wang, S. Dostie, S. Foster, P. Mochirian, M. Prévost, Y. Guindon. *J. Org. Chem.* **2019**, *84* (24) 16055-16067.
119. "Photoredox Catalyzed Stereoselective Radical Reactions to Synthesize Nucleoside Analogues with a C2'- Stereogenic All-carbon Quaternary Center". F. Becerril-Jiménez, T. Lussier, L. Leblanc, C. Eymard, S. Dostie, M. Prévost, Y. Guindon, *J. Org. Chem.* **2019**, *84*, 14795-14804
118. "Synthesis of Sialyl LewisX Glycomimetics Bearing a Bicyclic 3-O, 4-C-Fused Galactopyranoside Scaffold". R. Simard, M. Joyal, L. Gillard, G. DiCenso, W. Maharsy, J. Beauregard, P. Colarusso, K.D. Patel, M. Prévost, M. Nemer et Y. Guindon, *J. Org. Chem.*, **2019**, *84*, 7372-7387
117. "Synthesis of Nucleoside Analogues Using Acyclic Diastereoselective Reactions". T. Lussier, M.E. Waltz, G. Freure, P. Mochirian, S. Dostie, M. Prévost, Y. Guindon, *Arkivoc* **2019**, partie iv, 113-142.
116. "Diastereoselective Radical Hydrogen Transfer Reactions Using N-Heterocyclic Carbene Boranes". G. Tambutet, Y. Guindon, *J. Org. Chem.*, **2016**, *81*(22), 11427-11431
115. "Diastereoselective Synthesis of C2'-Fluorinated Nucleoside Analogues using an Acyclic Approach". S. Dostie, M. Prévost, P. Mochirian, K. Tanveer, N. Andrella, A. Rostami, G. Tambutet, Y. Guindon, *J. Org. Chem.*, **2016**, *81*(22), 10769-10790.
114. "Total Synthesis of Zincphorin Methyl Ester. Stereocontrol of 1,2-induction Using Sterically Hindered Enoxysilanes". F. Godin, P. Mochirian, G. St-Pierre, Y. Guindon, *Tetrahedron*, **2015**, *71*, 709-726
113. "Dual-Face Nucleoside Scaffold Featuring a Stereogenic All-Carbon Quaternary Center. Intramolecular Silicon Tethered Group-Transfer Reaction", G. Tambutet, F. Becerril-Jiménez, S. Dostie, R. Simard, M. Prévost, P. Mochirian, Y. Guindon, *Org. Lett.* **2014**, *16*, 5698-5701
112. "Investigation of Diastereoselective Acyclic α -Alkoxydithioacetal Substitutions Involving Thiocarbenium Intermediates", M. Prévost, S. Dostie, M.-E. Waltz, Y. Guindon, *J. Org. Chem.*, **2014**, *79* (21), pp 10504–10525)
111. "Acyclic Tethers Mimicking Subunits of Polysaccharide Ligands : Selectin Antagonists", M. Calosso, G. Tambutet, D. Charpentier, G. St-Pierre, M. Vaillancourt, M. Bencheqroun, J.F. Gratton, M. Prévost, Y. Guindon, *ACS Med. Chem. Lett.*, **2014**, *5*, 1054-1059.
110. "Stereocontrolled Synthesis of Propionate Motifs from L-Lactic and L-Alanine Aldehydes. A DFT Study of the Hydrogen Transfer Under Endocyclic Control"; F. Godin, M. Duplessis, C. Buonomano, T. Trinh., K. Houde, D. Chapdelaine, J. Rodrigue, A. Boutros, and Y. Guindon., *Org. Chem. Front.*, **2014**, *1*(8), 974-982
109. "A Study of Exocyclic Radical Reductions of Polysubstituted Tetrahydropyrans, "; F. Godin, M. Prévost, F. Viens, P. Mochirian, J.F. Brazeau, S.I. Gorelsky, Y. Guindon, *J. Org. Chem.* **2013**, *78*(12) 6075-6103
108. "A Study of the Endocyclic versus Exocyclic-C-O Bond Cleavage Pathways of Alpha- and Beta-Methyl Furanosides"; O. St-Jean, M. Prévost, Y. Guindon. *J. Org. Chem.*, **2013**, *78*(7) 2935-2946.
107. "Diastereoselective Hydrogen Transfer Reactions: An Experimental and DFT study"; F. Godin, M. Prévost, S.I. Gorelsky, P. Mochirian, M. Nguyen, F. Viens, Y. Guindon. *Chem. A Eur. J.* **2013**, *19*(28)9308-9318
106. "A New Approach to Explore the Binding Space of Polysaccharide-based Ligand. Selectin Antagonist". M. Calosso, D. Charpentier, M. Vaillancourt, M. Bencheqroun, G. St-Pierre, B.C. Wilkes, Y. Guindon. *ACS Med. Chem. Lett.* **2012**, *3* (12), 1045–1049
105. "A Stereoselective Approach to β -L-Arabinose Nucleoside Analogues: Synthesis and Cyclization of Acyclic 1',2'-syn N,O-Acetals", S. Dostie, M. Prévost, Y. Guindon; *J. Org. Chem* **2012**, *77*, 7176. (Featured Article).
104. "Stereoconvergent Synthesis of the C1-C9 Tetrahydropyran Subunit of Zincphorin and Isomers Thereof", F. Godin, I. Katsoulis, E. Fiola-Masson, S. Dhambri, P. Mochirian, Y. Guindon; *Synthesis*, **2012**, *44*, 474-488

103. "Selected Diastereoselective Reaction – Free Radical Additions and cyclizations", Y. Guindon, F. Godin, P. Mochirian, M. Prévost. (Book Chapter Accepted). In *Comprehensive Chirality*, H. Yamamoto, E. Carreira; Eds. Elsevier: Oxford, UK, Guindon (2012).
102. "A Bidirectional Approach to the Synthesis of Polypropionates Synthesis of C1 C13 Fragment of Zincophorin and Related Isomers", P. Mochirian, F. Godin, I. Katsoulis, I. Fontaine, J.F. Brazeau, Y. Guindon; *Dos*. (Featured article).
101. "Synthesis of 1',2'-*cis*-Nucleoside Analogues: Evidence of Stereoelectronic Control for S_N2 Reactions at the Anomeric Center of Furanosides", M. Prévost, O. St-Jean, Y. Guindon; *J. Am. Chem. Soc.*, **2010**, *132*, 12433.
100. "Stereocontrolled Synthesis of C1-C17 Fragment of Narasin via a Free Radical-Based Approach", J.-F. Brazeau, A.A. Guilbault, J. Kochuparampil, P. Mochirian, Y. Guindon. *Org. Lett.*, **2010**, *12* (1,) 36.
99. "A Stereoselective Approach to Nucleosides and 4'-thioanalogues from Acyclic Precursors", D. Chapdelaine, B. Cardinal-David, M. Prévost, M. Gagnon, I. Thumin, Y. Guindon; *J. Am. Chem. Soc.* **2009**, *131*, 17242–17245.
98. "Stereoselective Quaternary Center Construction via Atom-Transfer Radical Cyclization using Silicon Tethers on Acyclic Precursors", M. Duplessis, B. Cardinal-David, M.-E. Waltz, Y. Guindon, *Org. Lett.*, **2009**, *11*, 3148.
97. "Raising the Ceiling of Diastereoselectivity in Hydrogen Transfer on Acyclic Radicals", I. Denissova, L. Maretti, B.C. Wilkes, J.C. Scaiano, Y. Guindon; *J. Org. Chem.* **2009**, *74*, 2438.
96. "Stereoentads Derived from a Sequence of Mukaiyama Aldolization and Free Radical Reduction on α -Methyl- β -Alkoxy Aldehydes: A General Strategy for Efficient Polypropionate Synthesis", J.-F. Brazeau, P. Mochirian, M. Prévost, Y. Guindon. *J. Org. Chem.*, **2009**, *74*, 64.
95. "Phenylselenoethers as Precursors of Acyclic Free Radicals: Creating Tertiary and Quaternary Centers Using Free Radical-Based Intermediates", B. Cardinal-David, J.-F. Brazeau, I.A. Katsoulis, Y. Guindon; *Curr. Org. Chem.*, **2006**, *10*, 1939.
94. "Synthesis of Tertiary and Quaternary Stereogenic Centers: A Diastereoselective Tandem Reaction Sequence Combining Mukaiyama and Free Radical-Based Allylation", B. Cardinal-David, B. Guérin, Y. Guindon, *J. Org. Chem.* **2005**, *70*, 776.
93. "Synthesis of Postulated Molecular Probes: Stereoselective Free-Radical-Mediated C-Glycosylation in Tandem with Hydrogen Transfer", Y. Guindon, M. Bencheqroun, A. Bouzide, *J. Am. Chem. Soc.* **2005**, *127*, 554.
92. "Diastereoselective Mukaiyama and Free Radical Processes for the Synthesis of Polypropionate Units", Y. Guindon, J.-F. Brazeau; *Organic Letters*, **2004**, *6*, 2599
91. "Opening of Tartrate Acetals Using Dialkylboron Bromide: Evidence for Stereoselectivity Downstream from Ring Fission", Y. Guindon, W.W. Ogilvie, J. Bordeleau, ; W. Cui, K. Durkin, V. Gorys, H. Juteau, R. Lemieux, D. Liotta, B. Simoneau, C. Yoakim. *J. Am. Chem. Soc.*, **2003**, *125*, 428-436.
90. "Synthesis of Polypropionate Motifs Containing the Anti-Anti Unit", P. Mochirian, B. Cardinal-David, B. Guérin, M. Prévost, Y. Guindon; *Tetrahedron Lett.*, **2002**, *43*, 7067-7071.
89. "Synthesis of 2,3-*anti*-3,4-*anti* and 2,3-*anti*-3,4-*syn* Propionate Motifs: A Diastereoselective Tandem Sequence of Mukaiyama and Free-Radical Based Hydrogen Transfer Reactions", Y. Guindon, M. Prévost, P. Mochirian, B. Guérin; *Organic Letters*, **2002**, *4*, 1019-1022.
88. "Synthesis of N-Glycosides. An Alternative Approach Based on Diastereoselective Base Coupling and S_N2 Cyclization", Y. Guindon, M. Gagnon, I. Thumin, D. Chapdelaine, B. Guérin; *Organic Letters*, **2002**, *4*, 241-244.
87. "Diastereoselective Synthesis of 2,3,5-trisubstituted Tetrahydrofurans via Cyclofunctionalization Reactions. Evidence of Stereoelectronic Effects", Y. Guindon, F. Soucy, C. Yoakim, W.W. Ogilvie, L. Plamondon; *J. Org. Chem.*, **2001**, *66*, 8992-8996.
86. "Influence of N-substituted Lactams on Acyclic Free Radical Based Hydrogen Transfer", Y. Guindon, A. Slassi, M. Bencheqroun; *Tetrahedron Lett.* **2001**, *42*, 6041-6044.
85. "Intramolecular aminyl and iminyl radical additions to α,β -unsaturated esters. Diastereoselective tandem cyclofunctionalization and hydrogen transfer reactions", Y. Guindon, B. Guérin, S.R. Landry; *Organic Letters* **2001**, *3*, 2293-2296.
84. "Synthesis of Propionate Motifs: Diastereoselective Tandem Reactions Involving Anionic and Free Radical Based Processes", Y. Guindon, K. Houde, M. Prévost, B. Cardinal-David, S.R. Landry, B. Daoust, M. Bencheqroun, B. Guérin; *J. Am. Chem. Soc.* **2001**, *123*, 8496-8501.

83. "Design and synthesis of a new Sialyl Lewis X mimetic: How selective are the selectin receptors?", M. De Vleeschauwer, M. Vaillancourt, N. Goudreau, Y. Guindon, D. Gravel; *Bioorganic & Medicinal Chemistry Letters* **2001**, *11*, 1109-1112.
82. "Cyclofunctionalization and Free Radical Based Hydrogen Transfer Reactions. An Iterative Reaction Sequence Applied to the Synthesis of the C₇-C₁₆ Subunit of Zincophorin", Y. Guindon, L. Murtagh, V. Caron, S.R. Landry, G. Jung, M. Bencheqroun, A.-M. Faucher, B. Guérin; *J. Org. Chem.* **2001**, *66*, 5427-5437.
81. "Stereocontrol in Radical Processes through the Exocyclic Effect: Dual Role of Triethylboron as Radical Initiator and In Situ Derivatization Agent", J.-P. Bouvier, G. Jung, Z. Liu, B. Guérin, Y. Guindon; *Organic Letters*, **2001**, *3*, 1391-1394.
80. "Free Radicals and Lewis Acid. Chelation-Controlled Radical Allylations of Substituted α -Halo- or α -Phenylseleno- β -Alkoxy Esters. The Endocyclic Effect", B. Guérin, C. Chabot, N. Mackintosh, W.W. Ogilvie, Y. Guindon; *Can. J. Chem.*, **2000**, *78*, 852-867.
79. "The Use of Lewis-Acids in Radical Chemistry. Chelation-Controlled Radical Reductions of Substituted α -Bromo- β -Alkoxy Esters and Chelation-Controlled Radical Addition Reactions", Y. Guindon, J. Rancourt; *J. Org. Chem.*, **1998**, *63*, 6554-6565.
78. "Hydrogen and Allylation Transfer Reactions in Acyclic Free Radicals", Y. Guindon, G. Jung, B. Guérin, W. W. Ogilvie; *Synlett*, **1998**, *3*, 213-220.
77. "Intramolecular Oxygen Radical Additions to α,β -Unsaturated Esters. Diastereoselective Tandem Cyclofunctionalization and Hydrogen Transfer Reactions", Y. Guindon, R. C. Denis; *Tetrahedron Lett.*, **1998**, *39*, 339-342.
76. "The Exo-cyclic Effect : Protecting Group Strategy to Enhance Stereoselectivity in Hydrogen Transfer Reactions of Acyclic Free Radicals", Y. Guindon, A.-M. Faucher, É. Bourque, V. Caron, G. Jung, S. R. Landry; *J. Org. Chem.*, **1997**, *62*, 9276-9283.
75. "The Exo-Cyclic Effect: Strategy Employing *In Situ* Derivatization or Lewis Acid Complexation to Enhance Stereoselectivity in Hydrogen Transfer Reactions", Y. Guindon, Z. Liu, G. Jung; *J. Am. Chem. Soc.*, **1997**, *119*, 9289.
74. "Practical, Stereoselective Synthesis of Palinavir, a Potent HIV Protease Inhibitor", P. L. Beaulieu, P. Lavallée, A. Abraham, P. C. Anderson, C. Boucher, Y. Bousquet, J.-S. Duceppe, J. Gillard, V. Gorys, C. Grand-Maitre, L. Grenier, Y. Guindon, I. Guse, L. Plamondon, F. Soucy, S. Valois, D. Wernic, et C. Yoakim; *J. Org. Chem.*, **1997**, *62*, 3440-3448.
73. "Stereoselective Radical Carbon-Carbon Bond Forming Reactions of β -Alkoxy Esters: Atom and Group Transfer Allylations under Bidentate Chelation Controlled Conditions", Y. Guindon, B. Guérin, C. Chabot et W. W. Ogilvie; *J. Am. Chem. Soc.*, **1996**, *118*, 12528.
72. "Lewis Acids in Diastereoselective Processes Involving Acyclic Radicals", Y. Guindon, B. Guérin, J. Rancourt, C. Chabot, N. Mackintosh et W. W. Ogilvie; *Pure and Applied Chemistry*, **1996**, *68*, 89.
71. "Large Scale Preparation of (2S,3S)-N-BOC-3-Amino-1,2-Epoxy-4-Phenylbutane: A Key Building Block for HIV-Protease Inhibitors", Y. Guindon, P. L. Beaulieu, D. Wernic et J.-S. Duceppe; *Tetrahedron Lett.*, **1995**, *36*, 3317.
70. "Stereoselective Radical Allylations of α -Iodo- β -Alkoxy Esters: Reversal of Facial Selectivity by Lewis Acid Complexation", Y. Guindon, B. Guérin, C. Chabot, N. Mackintosh, et W. W. Ogilvie; *Synlett*, **1995**, *5*, 449.
69. "Role of δ -Donation in the Stereocontrol of Hydrogen-Transfer Reactions Involving Acyclic Radicals", Y. Guindon, A. Slassi, J. Rancourt, G. Bantle, M. Bencheqroun, L. Murtagh, É. Ghiro et G. Jung; *J. Org. Chem.*, **1995**, *60*, 288.
68. "A Potent Peptidomimetic Inhibitor of HSV Ribonucleotide Reductase with Antiviral Activity *In Vivo*", Y. Guindon, M. Liuzzi, R. Déziel, N. Moss, P. Beaulieu, A.-M. Bonneau, C. Bousquet, J. G. Chafouleas, M. Garneau, J. Jaramillo, R. L. Krogsrud, L. Lagacé, R. S. McCollum et S. Nawoot ; *Nature*, **1994**, *372*, 695.
67. "Benzoxazolamines and Benzothiazolamines: Potent, Enantioselective Inhibitors of Leukotriene Biosynthesis with a Novel Mechanism of Action", Y. Guindon, E. S. Lazer, C. K. Miao, H.-C. Wong, R. Sorcek, D. M. Spero, A. Gilman, K. Pal, M. Behnke, A. G. Graham, J. M. Watrous, C. A. Homon, J. Nagel, A. Shah, P.R. Farina et J. Adams; *Journal of Medicinal Chemistry*, **1994**, *37*, 913.
66. "Stereoselective Hydrogen Transfer Reactions Involving Acyclic Radicals. Tandem Substituted Tetrahydrofuran Formation and Stereoselective Reduction: Synthesis of the C₁₇-C₂₂ Subunit of Ionomycin", Y. Guindon, C. Yoakim, V. Gorys, D. Delorme, J. Renaud, G. Robinson, J.-F. Lavallée, A. Slassi, G. Jung, J. Rancourt, D. Liotta et K. Durkin; *J. Org. Chem.*, **1994**, *59*, 1166.

65. "The Effect of Polar Substituents on the Conformation and Stereochemistry of Enolate Radicals", B. Giese, W. Damm, F. Wetterich, H.-G. Zeitz et J. Rancourt and Y. Guindon *Tetrahedron Lett.*, **1993**, 34, 5885.
64. "Inhibition of Herpes Simplex Virus Type 1 Ribonucleotide Reductase by Substituted Tetrapeptide Derivatives", Y. Guindon, N. Moss, R. Déziel, J. Adams, N. Aubry, M. Bailey, M. Baillet, P. Beaulieu, J. DiMaio, J.-S. Duceppe, J.-M. Ferland, J. Gauthier, E. Ghio, S. Goulet, L. Grenier, P. Lavallée, C. Lépine-Frenette, R. Plante, S. Rakhit, F. Soucy et D. Wernic ; *Journal of Medicinal Chemistry*, **1993**, 36, 3005.
63. "Structure of Dimethyl (2R,3R)-2-[[[S]-Bromo(cyclohexyl)methyl]oxy]-3-[[[diphenyl-boryl]oxy]-1,4-butanedioate", Y. Guindon , M. Drouin, A. G. Michel et W. W. Ogilvie; *Acta Cryst.*, **1993**, 49, 75.
62. "Stereoselective Silver Triflate-Mediated Iodocyclization of Carbamates", Y. Guindon, A. Slassi, E. Ghio, G. Bantle et G. Jung; *Tetrahedron Lett.*, **1992**, 33, 4257.
61. "Stereoselective Hydrogen Transfer Reactions Involving Acyclic Radicals: A Study of Radical Conformations Using Semi-Empirical Calculations". Y. Guindon, K. Durkin, D. Liotta, J. Rancourt, J.-F. Lavallée , L. Boisvert; *J. Am. Chem. Soc.*, **1992**, 114, 4912.
60. "Discovery and Development of Two Potent Therapeutic Agents in the Indole Series: MK-886, A New Biosynthesis Inhibitor of Leukotriene and L-670,596, A New Thromboxane Receptor Antagonist", Y. Guindon, Y. Girard, R. Dixon, D. Ethier, J. Evans, A. Ford-Hutchinson, R. Fortin, P. Hamel, T. Jones *et al*; *Actual. Chim. Ther.*, **1991**, 18, 117.
59. "Stereoselective Chelation-Controlled Reductions of α -iodo- β -alkoxy Esters Under Radical Conditions", Y. Guindon, J.-F. Lavallée, M. Llinas-Brunet, G. Horner et J. Rancourt; *J. Am. Chem. Soc.*, **1991**, 113, 9701.
58. "Stereoselective Opening of Acetals Derived from Dimethyl Tartrate", Y. Guindon, B. Simoneau, C. Yoakim, V. Gorys, R. Lemieux et W. W. Ogilvie; *Tetrahedron Lett.*, **1991**, 32, 5453.
57. "Indole-2-Alkanoic Acids: A New Class of Biologically Active Molecules. Thromboxane Antagonists", Y. Guindon , J. W. Gillard, R. Fortin, C. Yoakim, H. E. Morton, R. A. Hall, G. Letts, T. R. Jones, P. Masson, A. Maycock, A. W. Ford-Hutchinson, D. Ethier, A. Lord, P. Yusko et J. Rokach; *Journal of Medicinal Chemistry*, **1992**.
56. "Specific Inhibition of Ribonucleotide Reductases by Peptides Corresponding to the C-Terminal of their Second Subunit", Y. Guindon, G. Cosentino, P. Lavallée, S. Rakhit, R. Plante, Y. Gaudette, C. Lawetz, P. W. Whitehead, J.-S. Duceppe, C. Lépine-Frenette, N. Dansereau, C. Guilbault, P. Gaudreau, Y. Langelier et L. Thelander ; *Biochemistry and Cell Biology*, **1991**, 69, 79.
55. "Stereoselective Radical-Mediated Reduction and Alkylation of α -halo Esters", Y. Guindon, J.-F. Lavallée, L. Boisvert, C. Chabot, D. Delorme, C. Yoakim, D. Hall, R. Lemieux et B. Simoneau; *Tetrahedron Lett.*, **1991**, 32, 27.
54. "Stereoselective Reduction of Acyclic α -Bromo Esters", Y. Guindon, C. Yoakim, R. Lemieux, L. Boisvert, D. Delorme et J.-F. Lavallée; *Tetrahedron Lett.*, **1990**, 31, 2845.
53. "Dialkyl and Diaryl Boron Halides: Reductive Opening of Benzylidene Acetals", Y. Guindon, Y. Girard, S. Berthiaume, V. Gorys, R. Lemieux et C. Yoakim; *Can. J. Chem.*, **1990**, 68, 897.
52. "Photoaffinity Labeling of the Human Platelet Thromboxane A_2 /Prostaglandin H_2 Receptor", Y. Guindon, D. E. Mais, C. Yoakim, J. W. Gillard, J. Rokach et P. V. Halushka; *Biochim. Biophys. Acta*, **1989**, 1012, 184.
51. "Tetrahydrocarbazol-1-Acetic Acids: New Class of Thromboxane Receptor Antagonists", Y. Guindon, Y. Girard, C. Yoakim-Rancourt, P. Hamel, J. W. Gillard, G. Letts, J. Evans, C. Leveille, D. Ethier *et al*; *Prog. Clin. Biol. Res.*, **1989**, 301, 585.
50. "Diastereoselective Synthesis of 2,3-Disubstituted Tetrahydrofuran Synthons via the Iodoetherification Reaction. A Transition State Model Based Rationalization of the Allylic Asymmetric Induction", Y. Guindon and M. Labelle; *J. Am. Chem. Soc.*, **1989**, 111, 2204.
49. "Synthesis and Structure-Activity Relationships of a Novel Class of 5-Lipoxygenase Inhibitors. 2-(Phenylmethyl)-4-hydroxy-3,5-dialkylbenzofurans: The Development of L-656,224", Y. Guindon, C. K. Lau, P. C. Bélanger, J. Scheiget, C. Dufresne, H. W. R. Williams, A. L. Maycock, T. Bach, A. L. Dallob, D. Denis, A. W. Ford-Hutchinson, P. H. Gale, S. L. Hopple, L. G. Letts, S. Luell, C. S. McFarlane, E. MacIntyre, R. Meurer, D. K. Miller, H. Piechuta, D. Riendeau, J. Rokach et C. Rouzer; *J. Med. Chem.*, **1989**, 32, 1190.
48. "Homoallylic Chiral Induction in the Synthesis of 2,4-Disubstituted Tetrahydrofurans by Iodoetherification. Synthetic Scope and Chiral Induction Mechanism", Y. Guindon , M. Labelle, H. E. Morton, et J. P. Springer; *J. Am. Chem. Soc.*, **1988**, 110, 4533.
47. "Total Synthesis of LTB₄ and Analogues", Y. Guindon, D. Delorme, C. K. Lau et R. Zamboni; *J. Org. Chem.*, **1988**, 53, 267.

46. "Symmetrical Alkoxysilyl Ethers. A New Class of Alcohol-Protecting Groups. Preparation of *tert*-Butoxydiphenylsilyl Ethers", Y. Guindon, J. W. Gillard, R. Fortin, H. E. Morton, C. Yoakim, C. A. Quesnelle et S. Daigneault; *J. Org. Chem.*, **1988**, *53*, 2602.
45. "New Synthetic Applications of Dialkylboron Halide Reagents", Y. Guindon, P. C. Anderson, C. Yoakim, Y. Girard, S. A. erthiaume et H. E. Morton; *Pure & Appl. Chem.*, **1988**, *60*, 1705.
44. "L-651,392: A Novel, Potent and Selective 5-Lipoxygenase Inhibitor", Y. Guindon, Y. Girard, A. Maycock, A. W. Ford-Hutchinson, J. G. Atkinson, P. C. Bélanger, A. Dallob, D. DeSousa, H. Dougherty, R. Egan, M. M. Goldenberg, E. Ham, R. Fortin, P. Hamel, R. Hamel, C. K. Lau, Y. Leblanc, C. S. McFarlane, H. Piechuta, M. Thérien, C. Yoakim et J. Rokach; *Advances in Prostaglandin, Thromboxane and Leukotriene Research*, **1987**, *17*, 554.
43. "Novel Arylthio- and Arylsulfonylpropoxyacetophenones: Design and Synthesis of L- 648,051 and L-649,923, Potent Antagonists of Leukotriene D₄", Y. Guindon, R. N. Young, T. R. Jones, J. G. Atkinson, P. Bélanger, E. Champion, D. Denis, R. N. DeHaven, A. W. Ford-Hutchinson, R. Fortin, R. Frenette, J. Y. Gauthier, J. Gillard, M. Kakushima, P. Masson, A. Maycock, C. S. McFarlane, H. Piechuta, S. S. Pong, J. Rokach, H. Williams, C. Yoakim et R. Zamboni; *Advances in Prostaglandin, Thromboxane and Leukotriene Research*, **1987**, *17*, 544.
42. "L-648,051: An Aerosol Active Leukotriene D₄ Receptor Antagonist", Y. Guindon, T. R. Jones, E. Champion, L. Charette, R. N. DeHaven, D. Denis, D. Ethier, A. W. Ford-Hutchinson, R. Fortin, R. Frenette, J. Y. Gauthier, R. Hamel, P. Masson, A. Maycock, C. McFarlane, H. Piechuta, S. S. Pong, J. Rokach, C. Yoakim et R. N.
